Scenario

You are a college student who always is struggling to have money on them to buy groceries and clothes. You need a way to have enough spending cash to do these activities.

Task 1: Create a budgeting plan by adding in your spending money for the month.

Task 2: Add your income for the month

Task 3: If you need more or less spending money for the day, you can update this tab.

Notes

What changes should I make to the application:

1. In the top left corner, tell what budget page you are on
2. In the top right corner, have arrows to change the budget page to make changes.
3. Make an option for daily, monthly, and yearly budget.

What should I keep in the application:

1. Keep the add and remove feature for each page
2. Keep feature that adds or removes daily spending by increments
3. Remove the swipe feature to change each page.
